

Quick Disconnect Couplings

CPC's most popular Quick Disconnect Couplings and FitQuik™ Connectors are now available from Qosina.

Quick Disconnect Couplings

CPC's quick disconnect couplings are renowned for their reliable, secure and leak-free connections for fluid and air management. These couplings can be used for industrial, life sciences, chemical handling, medical and food markets.

The coupling bodies and inserts are offered with options of medical grade, radiation grade, chemical and UV resistant materials. Valved and non-valved connector sizes range from subminiature to high flow, to fit tubing from 1/16 inch (1.6 mm) ID to 3/4 inch (19 mm) ID.

FitQuik™ Connectors

CPC's FitQuik™ Connectors are designed to eliminate tubing leak points in medical devices, analytical instrumentation or air-driven equipment and will offer medical device manufacturers and OEMs a high quality alternative to standard fittings and luers.

These connectors are available in nylon and polypropylene, and come in various configurations including barbed ends for tubing 1/16 inch (1.6 mm) to 3/8 inch (9.5 mm) ID, threads (Standard Luer, NPT, 1/4-28 UNF, and 10-32), caps and plugs.

Qosina offers CPC couplings and connectors at competitive market prices. We are pleased to provide you with samples and to assist you with selections from our inventory of Thousands of Stock Components.

Contact a Qosina Customer Specialist for tubing and other components, along with your CPC selections to complete your project.
