Qosina Fiber Optic Swabs

Edgewood, NY, April 18, 2005 – Qosina’s precision polyurethane foam swabs are excellent for wiping fiber optic connectors or cleaning tight areas. These swabs are adhesive-free, leave no strands or residue and provide abrasion resistance. The foam head wicks moisture and can be utilized to apply solvents or other liquids. The swabs, measured from foam tip to the end of their polypropylene handles, are approximately 6.3 inches in length.
