

**NEWS RELEASE  
FOR IMMEDIATE RELEASE**

## **Qosina 2007 Catalog**

Edgewood, NY May 3, 2006 Qosina announces the release of our largest catalog ever, 568 pages featuring thousands of OEM disposable components. The 2007 edition contains full-size color photos of all Qosina products, including over 550 new parts, on a handy one-centimeter grid for accurate sizing. The Qosina catalog is an essential resource for engineers, product designers and purchasing departments.

Established in 1980, Qosina has become a leading provider of stock and custom-made components including luers, ports, caps, tuohy-borst adapters, USP Class VI tubing, spikes, forceps, drip chambers, filters, hemostasis valves, plastisol connectors, checkvalves, wye connectors, torquers, clamps, swabs and applicators. Qosina's latest catalog also offers an expanded laboratory section as well as packaging items, such as dispenser tip bottles, QosiPET™ vials and droppers, and syringes.

Qosina will support your production requirements with just-in-time delivery from its ISO 9001:2000 Registered 50,000 square foot facility. To receive a copy of the 2007 catalog, call a Customer Specialist at +1 (631) 242-3000, fax +1 (631) 242-3230 or send an email to [info@qosina.com](mailto:info@qosina.com). Please visit [qosina.com](http://qosina.com) to search an interactive catalog, request free samples, send a secure online order or download PDF files of the print edition.
